## Proposed Sea Port Oil Terminal Project Vicinity Map

### PROJECT DETAILS

#### Offshore Facilities

- Fixed platform located approximately 30 nautical miles off the coast of Brazoria County, Texas, in water depths of approximately 115 feet
- Two collocated, 36-inch diameter, 40.8-nautical mile-long crude oil pipelines

#### Onshore Facilities

- Located in Brazoria and Harris counties
- One 36-inch diameter, 50.1-mile long pipeline
- Two 36-inch diameter, 12.2-mile pipelines
- Onshore storage terminal with seven aboveground storage tanks, each with total capacity of 685,000 barrels
